Professional Summary

Full Stack MERN Developer with hands-on experience in building responsive, scalable, and user-friendly web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in JavaScript, HTML, CSS, Bootstrap, Tailwind CSS, REST APIs, JWT authentication, Socket.io, Git, and GitHub. Experienced through internships and real-world projects, with a strong focus on clean code, problem-solving, and delivering efficient, client-focused solutions.

Work Experience

- **Frontend Development Intern – Maven Cluster (April 2025 – July 2025)**

  Collaborated with a development team on real-world projects, applying HTML, CSS, and JavaScript Enhanced UI responsiveness and improved website performance for client projects.
  Contributed to user interface design, ensuring mobile-friendly layouts and smooth interactions.

- **MERN Stack Developer Intern – Alphawizz Technologies (April 2026 – July 2026)**

  Worked as a MERN Stack Developer Intern, contributing to the development of full-stack web applications. Designed and developed RESTful APIs using Node.js and Express.js, with MongoDB for database management Built and integrated frontend features using React.js, implementing authentication, protected routes, and API integration. Developed a real-time Chat Application using Socket.io, featuring one-to-one messaging, group chats, room creation and joining, user authentication, and profile management. Collaborated with the development team using Git and GitHub while following clean coding practices, debugging issues, and improving application performance.

Projects

- **Real-Time Chat Application**

  A full-stack MERN chat application that enables secure real-time messaging with one-to-one and group chat functionality. Built with Socket.io for instant communication, JWT authentication for secure access, and MongoDB for efficient data management.

- **Crumbin – Clothing E-Commerce Frontend**

  Crumbin is a modern clothing e-commerce website designed for browsing and shopping fashion products. Developed the frontend with a clean and responsive UI, product listings, product details, cart functionality, and smooth navigation to deliver a user-friendly online shopping experience**.**

- **Personal Portfolio – Mern Stack Developer (waldenstechsolutions)**

  A modern personal portfolio website showcasing my skills, projects, and experience as a Full-Stack Developer. Designed and developed a clean, responsive interface with dedicated sections for projects, skills, experience, and contact information to create a professional online presence.
